**Don't Let Your  
MEDI-MEDI  
Claims Time Out!**

**If you have been holding claims for clients who have Medicare and Medi-Cal and it is approaching one year from the date of service, submit your claim to Medi-Cal without including Medicare as a payer on the claim using late code 3. The claim might be denied by Medi-Cal because it lacks Medicare adjudication (approval/denial) information but you will be able to correct later, when appropriate and applicable, because the State has received your claim within one year of the service date.**

**We're here to help you...**
